Subject: Public Input Form for Agencies Under Review (Public/After Publication)

Agency: TEXAS DEPARTMENT LICENSING AND REGULATION

First Name: Victoria

Last Name: Young

Title: Educator Stylist Barber

Organization you are affiliated with: Paul Mitchell

Email:

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Just to be a cosmetologist/barber you must go to school. In order to teach in a school a license/certification is required. If we take away educator licenses we will be going off of what? Nothing. The blind leading the blind. Sanitation standards will not be met as well as building up the person entering the field. Teachers are trained to understand the information inside and out and how to get a person to understand what they are learning and how to produce the outcome they are seeking. If we only have Indians, there will be no Chiefs to encourage better and show better.

Any Alternative or New Recommendations on This Agency:

I am all for integration but you will need hours to go back up to 1500.

Students that only want Cosmo or barber 1000 hours. Those that want both 1500-1700 and required to take both test.

Educator license needs to be left alone and bring about virtual teaching classes where the virtual will be their testing out of the program instead of going to teach an empty room. So it allows you to see in action a real life class with real situations and circumstances happening vs teaching to an empty room. Memorizing a lesson and what to say is the easy part but really putting it into action that speaks volume.

My Comment Will Be Made Public: I agree
