Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed:

I oppose the Staff Report's Recommendation.

1. The number (and percentage) of grandfather generation (P.G.) will decline significantly in next 5-10 years. So that is not a problem.
2. Although many P.G.s does not formally stamp their duties, they keep their professionalism and ethics in many work they carried out, especially in the government offices. With P.G., we do our job carefully.
3. P.G is especially useful for groundwater related environmental issues, such as landfill design and monitoring. It is unalterable by P.E.

Any Alternative or New Recommendations on This Agency: Strengthen enforcement.

My Comment Will Be Made Public: I agree
