Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I worked at Abilene State Supported Living Center as a licenced vocational nurse last year. This facility is the most horrible place created. Yes good people try to work and take care of the patients. Sad that bad and evil people are the majority of the people that work at Abilene State Supported Living Center. I was threatened by a staff to not give a patient a drink of water because staff did not want to deal with urination. I filed a complaint but it was ignored because they were overloaded with more severe complaints.

First and most important you are taught to not do anything where camera's can see you. Out of camera view the patients are treated horribly. Majority of staff does drugs or alcoholic while working. When I complained to my immediate supervisor she fired me, I did not meet her the first year I worked there. She had no idea what was going on and did not want to know. I told her she was the worst nursing supervisor I had ever had. Please close that place down.
