Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I in a way do opposed the closure of this SSLC centers, But to a point , This so call clients that are living in this centers will become a so call problems to their families and cities that they have come from. They are being placed on a long waiting list for services for community based care, that at this moment still has a long list of other clients that have been waiting for sometime to also get services. So when this SSLC clients are transferred, the list just starts getting longer and the cost will be up, then what?

Any Alternative or New Recommendations on This Agency: The other alternative that would help is that you want for this client to as much independent as possible and be a example to our cities. Before this clients get prepared to be sent somewhere else, start giving them training or preparing them for the job area. Why wait until this client are out of their area and sent to the unknown, have the DARS people sent coaches out to this SSLC to train this individuals ,so that when they are sent out to our communities they will know what to do, or already have a job waiting for them. And with the ones that are unable to learn, then see just what they can do in our society. And maybe the cost of this will be less

My Comment Will Be Made Public: I agree
