

TESTIMONY FOR STATE CENTERS

My name is Mary Neal and my grandson is Andrew Mayfield. He now lives in Denton State Center. He is happy and safe.

Why is my grandson's service under attack? Andrew is mentality challenged as being a two, three old and he will not survive in a home with one person in charge. I do not want Andrew to become a death statistic.

I pray people to look into their heart and make the right decision to keep the State Centers open.

Please do not take Andrew and other mentality challenged people's homes away from them.

Thank You,

Mary Neal
