Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

It is my understanding that repealing the mold remediation regulations is being considered. I think that this is a step in the wrong direction. Mold can have serious negative health impacts on people. Mold is a very robust organism and if not correctly remediated will reappear in a relatively short time. Ensuring those who perform mold remediation are sufficiently trained and knowledgeable is important in protecting the public's health.

Thank you.

Any Alternative or New Recommendations on This Agency: Keep the mold regulations as currently written in place

My Comment Will Be Made Public: I agree
