Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Rosa M.

Last Name: Alvarado

Title: Registered Nurse

Organization you are affiliated with:

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: My concern is the safety of patients as early as premature babies to the elderly, as it is hospitals are very short staffed. Patients would suffer dramatically as they would not obtain the care they require and would end up coming back with recurring illness making the cost higher than if initially they would have received the care provided by all these license professions.

Respiratory therapist, radiology technicians and dietitians make a big difference and play a big role in the health care system as they have struggled through college to get educated specifically in their field. There would also be greater unemployment and the dream of living in America to obtain an education would be shattered.

Any Alternative or New Recommendations on This Agency: keep our respiratory therapist, radiology technicians, dieticians as they have been educated in their field to specialize directly with specific complications that arise within their specialized field.

My Comment Will Be Made Public: I agree
