Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I oppose the disbanding of the Texas MRT program. This program helps ensure that Texans receive the highest quality of care by trained healthcare professionals. It took years of education for me to learn proper radiation safety, radiation protection and radiation physics. Unlicensed "techs" may know how to push buttons on a machine, but they lack the knowledge of how to obtain quality images or provide effective treatments while limiting radiation exposure. Texans deserve quality healthcare. I urge you to protect our citizens by keeping this program in place.

Any Alternative or New Recommendations on This Agency: Keep the Texas MRT program in place
