Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Stefano

Last Name: Biondo

Title: Nuclear Medicine Technologist II

Organization you are affiliated with: St. Luke's Sugarland Hospital CHI

Email: [Sbiondo@stlukeshealth.org](mailto:Sbiondo@stlukeshealth.org)

City: Sugarland

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed:

need to preserve licensure for radiographers, radiation therapists and nuclear medicine

Licensure for radiologic technologists ensures that patients are being treated by individuals who have met education and certification standards.

Licensed radiologic technologists lower patient exposure to ionizing radiation, a known carcinogen, by optimizing technique for medical imaging and treating cancers and other illnesses. Unlicensed personnel do not understand how to minimize exposure while achieving quality images or effective treatments.

Licensure for radiologic technologists preserves the state's right to penalize individuals who may not treat patients according to professional standards or administer radiation correctly. Without licensure, the state cannot protect its citizens from untrained individuals.

Any Alternative or New Recommendations on This Agency:

There is a need to preserve licensure for radiographers, radiation therapists and nuclear medicine

My Comment Will Be Made Public: I agree
