Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Benjamin

Last Name: Box

Title: Registered Nurse- ER Staff

Organization you are affiliated with: Texas Children's Hospital

City: Spring

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or

Opposed: I recently have recieved an email about the elimination of Respiratory care. i have been a Nurse for almost 5 years now, and one thing that i have come to realize is that the harder the goverment makes healthcare access and healthcare laws, the more providers we need at the bedside.

Respiratory care plays a pivotal role in the healthcare field. As a provider to kids, i see how important respiratory care is to the patients with frequent asthma attacks, pneumonia, and bronchiolitis patients. i beleive that taking away Respriatory care is a big mistake, and i think that there are already to many mistakes being made in healthcare, by big goverment changes. This is not the appropriate decision, and iam completley aganist getting rid of respiratory care

Any Alternative or New Recommendations on This Agency: Re-evaluate respiraory care education, re-evaluating budget for respiratory care. Also you could increase the level of education that is required to be a respiratory therapist

My Comment Will Be Made Public: I agree
