Title: RT(R)

Organization you are affiliated with: Kelsey Seybold Clinic

Email: [jennifer.briggs@kesley-seybold.com](mailto:jennifer.briggs@kesley-seybold.com)

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Please do not abolish state licensure for Radiologic technologists here in Texas. State licensing ensures that patients are being treated by individuals who have met education and certification standards. Licensed radiologic technologists lower patient exposure to ionizing radiation, a known carcinogen, by optimizing technique for medical imaging and treating cancers and other illnesses. Unlicensed personnel do not understand how to minimize exposure while achieving quality images or effective treatments.

Licensure for radiologic technologists preserves the state's right to penalize individuals who may not treat patients according to professional standards or administer radiation correctly. Without licensure, the state cannot protect its citizens from untrained individuals.

Any Alternative or New Recommendations on This Agency: Please make no changes to the licensing of Radiologic Technologists here in Texas.

My Comment Will Be Made Public: I agree
