Submitted on Saturday, June 14, 2014 - 11:53

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Constance

Last Name: Broadhurst

Title: ARRT(R)(CT)

Organization you are affiliated with:

City: St. Louis

State: Missouri

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Your proposal to deregulate Radiologic Technologists will have a "snowball" effect in other states, so I'm writing to add my opinion. Would the board members that are deciding this issue, the ones with children, be willing to have thier children x-rayed by someone without a license? Especially in these days of computer screens that can be adjusted to compensate for over-exposure techniques? Would you really want someone with no training subjecting your injured and hurting and crying child to exposure after exposure? Licensure requires only properly trained and accredited individuals be allowed to administer radiation to your children.

Any Alternative or New Recommendations on This Agency: I'm recommending that you do not decide to deregulate Radiologic Technologists licensure. Leave licensure in place.

My Comment Will Be Made Public: I agree
