Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Sherry

Last Name: Brogan

Title: Radiographer

Organization you are affiliated with:

City: Katy

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I propose the state of Texas keeps licensure for those in the imaging field. I have seen first hand doctors and nurses do not know ANYTHING about the effects of ionizing radiation and or radiation safety let alone someone off the street. If it were not for the team I work with many children who are already receiving substantial doses of radiation would receive up to twice if not three times as much radiation. Doctors and nurses are also not competent in how the machines work and would just waste more money on continuously replacing equipment. Examples being digital portable machines with wireless detectors and C arms.

Any Alternative or New Recommendations on This Agency: Recognize your technologists make a huge difference in the medical field and reduce our licensing fees.

My Comment Will Be Made Public: I agree
