Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am writing in opposition of the Sunset Advisory Commission's Staff Report ISSUE 3. Licensed RT(R)s ensure that all patients receiving medical radiation are cared by from highly trained individuals. Ionizing radiation is a known carcinogen and if it is not delivered in the lowest dose possible, which is only taught in programs that license RT(R)s, the state of TX will be unable to protect its citizens from untrained individuals overexposing the general public to radiation.

Any Alternative or New Recommendations on This Agency: It is imperative that the State of TX continue the licensing and regulation of a radiologic technologist!!!

My Comment Will Be Made Public: I agree
