Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Opposed to deregulation of mold under TMARR. Prior to regulation, the mold remediation industry was fraught with unscrupulous and untrained contractors. TMARR put in place protections for mold remediation workers, homeowners, and building owners/occupants. Prior to institution of TMARR, mold remediation costs ran wild to the point of becoming uninsurable, costing homeowners and building owners ridiculous sums of money. Absent regulation of this hazard, the fox will once again be guarding the henhouse.

Any Alternative or New Recommendations on This Agency: I recommend TMARR be left in place.
