Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I oppose the discontinuance of the Medical Radiologic Technologist Licensure Program and repeal of licensure standards in Texas because of the following:

Licensure for radiologic technologists ensures that patients are being treated by individuals who have met education and certification standards.

Licensed radiologic technologists lower patient exposure to ionizing radiation, a known carcinogen, by optimizing technique for medical imaging and treating cancers and other illnesses. Unlicensed personnel do not understand how to minimize exposure while achieving quality images or effective treatments.

Any Alternative or New Recommendations on This Agency: Licensure for radiologic technologists preserves the state's right to penalize individuals who may not treat patients according to professional standards or administer radiation correctly. Without licensure, the state cannot protect its citizens from untrained individuals.
