Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am strongly opposed to any effort to deregulate Radiologic Technologists in the state of Texas. Please do not take lightly the level of education required to produce ionizing RADIATION for the express purpose of SAFELY imaging our Texas citizens. We, the Radiologic Technologist collectively, save lives, give hope and promise to image gently. Licensure ensures that All Registered Radiologic Technologists are competent to administer RADIATION. Why would you settle for less?

NO TO DEREGULATION! ONLY YOU CAN KEEP US, YOUR CITIZENS, SAFE!

Any Alternative or New Recommendations on This Agency: Please revisit the CARE act. Radiation in the hands of the uneducated is DANGEROUS!

My Comment Will Be Made Public: I agree
