Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Courtney

Last Name: Clark

Title:

Organization you are affiliated with:

City: Weatherford

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Radiation is deadly and people who are not licensed and educated could be administering high doses to the public. They could over dose children who still have developing organs and cause long term damage. Licensing allows the state to oversee all the R.T.s working and allows penalization for misconduct. Taking away licensing in Texas makes absolutely no sense because one of the main parts of the job is trying to achieve a diagnostic quality radiographs while keeping radiation as low as possible. If technologists aren't educated about radiation then they won't know how to do this.

Any Alternative or New Recommendations on This Agency: Keep Texas licensing standards intact

My Comment Will Be Made Public: I agree
