Subject: Respiratory therapist

I am a registered nurse in the state of Texas and work in the Emergency Room. I believe that the respiratory therapist are important in the Emergency Room!!! Please do not take away their license from them. They all have worked very hard for their license and deserve to keep it. We need them in the ER because we already have to much to keep up with as an registered nurse. We don't need somebody else's job added on to ours!

Thanks  
Jody Clemens
