**Subject:** Deregulation of Respiratory Therapists Licenses

Think of you and your loved ones relying on those trained to care and heal you when you are the most vulnerable. Of all the professions to choose to deregulate, why choose the medical profession where you rely on these people to save your life! I have been a Respiratory Therapist for 29yrs now and have seen a lot of good and bad. Believe me when I tell you that we need to be watching the professionals that we look up to when we are sick or wounded. Please pull for the regulation of our license so we can continue to update our education and be the professionals we all expect.

Thanks so much!
