Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I have been in the field of Radiology for nearly 20 years. We (RT's) are aware of the risks of radiation and the many harmful biologic effects if not used correctly. The licensure is the only way our society can be reassured that we, the technologist, have the appropriate knowledge on how to utilize radiation. We must preserve the current mandatory licensure in the state of Texas.

Any Alternative or New Recommendations on This Agency: Be sure to run this by all insurance providers; especially Medicare/Medicaid.

My Comment Will Be Made Public: I agree
