Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Opposed to recommendations to delete the regulations regarding licensing, education and notification of remediation work under the state's Auspices, without these safeguards there will be NO REGULATION OF MOLD REMEDIATION; it is not repetitive or duplicative of federal agencies. No federal agency inspects remediation work here in Texas. The consequences would be disastrous and would see a return of the "Ballard" Dripping Springs nightmare, at a minimum and civil litigation increase along with damages to human beings.

Any Alternative or New Recommendations on This Agency: Delegate licensing, etc. But retain right to be notified 5 days prior, inspect, and punish.

My Comment Will Be Made Public: I agree
