Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Please do not deregulate respiratory care practitioners. Many of us have worked hard to help our field advance and this could lead to people taking over our responsibilities that are not properly trained. Respiratory therapists do many important, life saving tasks that require specific training. It would be dangerous to patients that we have sworn to protect to let others with no license take care of them this way. Please for patient safety reconsider. Thank you.

Any Alternative or New Recommendations on This Agency: I do not have any new recommendations at this time but please do not deregulate Respiratory Care Practitioners.

My Comment Will Be Made Public: I agree
