Subject: Form submission from: Public Input Form for Agencies Under Review (Public/After Publication)

Submitted on Monday, June 23, 2014 - 20:09

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Stephen

Last Name: Hencke

Title: MSRS, (R)(CT)(CV)

Organization you are affiliated with: ARRT, ASRT

City: Fort Worth

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am opposed to the de regulating Radiologic Technologists. The dispensing on any known cancer causing agents should be in the hands of educated, licensed professionals. Removing the state requirement would put the public in sever danger from the un regulated personnel button pushers. These machines we operate are dangerous, complicated and expensive. Patients that submit to being exposed to radiation need to know that the operator is qualified to operate it, educated in protection and licensed.

We need to protect our citizens and our future by saying " No in my State"  
to any person not willing to put in the time in school, learn the profession, and strive to advance the profession from exposing our citizens to radiation.

We owe every Texan this!

Any Alternative or New Recommendations on This Agency: I feel that Radiologic Technologist should be have at minimum an Associates Degree and an advanced certificate for operating any modality.

My Comment Will Be Made Public: I agree
