Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Please for the love of God and the safety of the patients DO NOT take away the respiratory care license. Can you imagine how many deaths in patients will result if you let nursing or someone else take over ventilator management which we specialize in? It's not just about treating asthma or a patient in respiratory distress....it's about being there at bedside during a code blue or any other life threatening situation with the doctor and the nurse and respiratory plays a huge role in this part including intubation.

Please think about what you are about to do.

Sincerely,
Subin Idiculla
