Your Comments About the Staff Report, Including Recommendations Supported or Opposed: My last pregnancy, labor and delivery involved the excellent care from a local licensed midwife. The wealth of knowledge and passion for healthy families is more than evident in the field of midwifery. I strongly believe that the Texas Midwifery Board should not be moved from the Department of State Health Services. This would make it much more difficult for these licensed health care professionals to offer the most safe, natural and drug-free birthing environment to families who wish to go this route. Thank you for considering the opinions of people with personal experiences with the midwives here in the state of Texas.

Any Alternative or New Recommendations on This Agency: Continue to have the Texas Midwifery Board be apart of the Department of State Health Services.
