Subject: Deregulation of RTs

Good afternoon, I'm trying to get some information on the deregulation of RTs and other health care professions. I'm just trying what justification or rationale is leading to this decision. In my opinion that will be a huge mistake. It will be a huge liability to patients and could probably be a liability for the hospitals they're working for.

Can you please tell me how someone who cuts hair (barbers), need to be regulated but someone who is in direct contact with patients and their personal information doesn't need to?

Thank you
José
