Submitted on Monday, June 16, 2014 - 10:35

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Sandra Jeanifeer

Last Name: Lara

Title: Texas Registered Radiologic Technologist

Organization you are affiliated with: Texas Society of Radiologic Technologists

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Save our licensure. The need for protecting our patients from the harmful affects of ionizing radiation begins with proper education and instruction that a registered radiologic technologist gains from an accredited insitution. To ensure the careful utilization of ionizing radiation in health care, a registered technologist is ethically bound to using radiation in the safest manner and must follow the guidelines of a quality assurance program. Please vote NO on requiring less education and accountability of individuals that are safeguarding the sick from the overusage and neglectfull usages of ionizing radiation. Ionizing radiation is used in CT, interventional radiology and operating rooms, fluoroscopy, and X-ray examinations performed by the hundreds of thousands on daily bases accross the state of Texas.

Any Alternative or New Recommendations on This Agency: none

My Comment Will Be Made Public: I agree
