Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am writing in opposition to the Sunset Advisory Commission Staff Report's recommendation to deregulate the licensure of Medical Radiologic Technologists. This is a huge step backwards. This is a bad idea and will lead to a serious public health and safety concern further down the road.

One thing I always tell my students: If there is a rule for it, it's because someone DID it. We have licensure for a reason; at one point in time, it became necessary. To do away with it, would be just as smart as doing away with requiring a motor vehicle operators license.

Thank you for your attention.

Any Alternative or New Recommendations on This Agency: Keep MRT licensure!!!

My Comment Will Be Made Public: I agree
