Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am concerned about the elimination of licensure for Medical Physicists. I work in Radiation Therapy and we rely on competent, expert professional Physicists to ensure the proper radiation doses are being delivered to cancer patients.

There could be significant harm to patients in Texas if there were no control over the competence of the Physics professionals who make sure radiation equipment is working correctly and delivering radiation doses as Physicians prescribe.

Eliminating this license would be like eliminating the license for Pharmacist ..

Any Alternative or New Recommendations on This Agency: Do not eliminate licensure for Medical Physicists in Texas.
