Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I personally know an incredible woman who has been tutoring and teaching Dyslexic students for almost 20 years now, including her own son. She is well trained, certified and truly makes an impact on the lives of the young students she works with. It would be a shame to have this law get abolished because there are many people out there that are qualified to help children with dyslexia. Not all teachers are trained or even knowledgeable about dyslexia and may struggle to teach a student who has this disability. These women and men who tutor these kids truly impact their lives in a positive way; with school and their personal lives.
