Subject: Form submission from: Public Input Form for Agencies Under Review (Public/After Publication)

Submitted on Wednesday, June 18, 2014 - 13:23

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Jacqueline

Last Name: Moga

Title: Medical Physicist

Organization you are affiliated with:

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I do not support the elimination of licensure for medical physicists in Texas. I believe that licensure helps to maintain high standard for the practice of medical physics, it forces oversight of those seeking licensure via temporary licenses, and it creates an environment conducive to accountability and regulation. Contrary to the statements of the 2014 Sunset Staff Report, I do believe that there would be a negative impact on public health and safety as physicist are primarily responsible for radiation safety in many healthcare settings and deregulation will allow unqualified personnel to serve in these critical roles.

Any Alternative or New Recommendations on This Agency: Maintain licensure for medical physicist and radiological technologists.

My Comment Will Be Made Public: I agree
