Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I as a Code Enforcement Officer for the city of El Paso am appalled at the route the state is taking by doing away with our state certifications which accredited all code enforcement officers. As a code enforcement officer we put our lives on the line every day, every time we go to a property we do not know what we're going to find or what we are going to in front. We serve the public by providing enforcement, environmental health and integrated solid waste management services to the greater El Paso community so that they can enjoy a healthy, clean, safe, and beautiful environment. Not to mention we also have to process residents through our judicial systems for noncompliance. If you do away with our certifications it would mean no more trainings which can cause us to be obsolete, and un educated among the public and our judicial system. So before making a decision please reevaluate correctly. Thanks
