Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The decision to deregulate the license for Respiratory Care is an atrocity. There would be major repercussions if this is carried through. A person with no training in the field of Respiratory Care is a danger to patients and it would not be a wise decision. I have 15 years experience and would never in a million years trust someone with no license to do the job that I do.

Any Alternative or New Recommendations on This Agency: Keep things as they are or find another way to not deregulate these licensures as they are so valuable for proper patient care. Just look at other states where this has happened as an example.

My Comment Will Be Made Public: I agree
