Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I would love to see the Respiratory license go away. I have been a therapist for over 10 years and the license does not affect how you do your job. It just cost money and the continuing education is a joke. Most therapist keep using the same info every year or 2 to get the credits you need and most skip to test on websites because it gives you same questions. I've seen some departments even keep the free websites with answer packets for continuing education.

Any Alternative or New Recommendations on This Agency: Please get rid of license.
