Subject: Form submission from: Public Input Form for Agencies Under Review (Public/After Publication)

Submitted on Saturday, June 21, 2014 - 22:06

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Prayuth

Last Name: Phang

Title: Radiologic Technologist

Organization you are affiliated with:

City: Dallas

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am opposed to the discontinuance of the Medical Radiological in Texas. When I was a student I worked hard before and during the program to be a good radiologic technologist. Now I know how to perform my job safely for my patients. Giving them the optimal technique for medical imaging. Ionizing radiation can be harmful to the patients if not using it properly with proper train and knowledge. Most of us should know already that radiation can cause cancer by damaging our cells. So why would we let someone that not getting proper train to treat our patients? We all should stand for better, not for worst.

Any Alternative or New Recommendations on This Agency:

I recommend that all professionals who use radiation to treat patients should be regulated under the Jurisdiction of Texas Department of Licensing.

MRT should be regulated in the Stat of Texas.

Thanks for the hard work. Please keep fight to get what is best for our loved ones.

My Comment Will Be Made Public: I agree
