Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Removing the Mold regulations would be a very big mistake. At the present time, consumers know when they are getting an inspection, the individuals are licensed, trained, passed a level of competence, have insurance, and they feel much better that the individual is licensed. Without the licensing program, it will become the wild west and there will be major issues with conflicts of interest, incompetence in completing assessments, remediation activities not properly completed, and costs will escalate for the consumer as it will be unregulated. Removing this program will be a major mistake for the consumer.

Any Alternative or New Recommendations on This Agency: keep the program.
