Subject: Form submission from: Public Input Form for Agencies Under Review (Public/After Publication)

Submitted on Sunday, June 22, 2014 - 12:07

Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: Cheryl

Last Name: Rogers

Title: M.D. (internal medicine)

Organization you are affiliated with:

City: Grand Prairie

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed:

What is the Sunset Commission members thinking? Where lies their responsibility to first protect the public from harm? If the commission decides to vote affirmative on the decision to allow non licensed individuals to perform imaging procedures without the knowledge of the danger of ionizing radiation to the patients they are x raying or to themselves.

I cannot condone nor accept such irresponsibility for the action from a committee in the state of Texas.

What good is an image that is totally unacceptable to interrupt and may mislead me in my diagnosis of a disease?

I am a practicing internal medicine physician in Texas and I am depending on you to make the correct and moral decision in this matter. I am adamantly Opposed to the decision to allow non license individuals to take imaging procedures. I support TSRT.

This should not be a fiscal descion but a moral descion.

Dr. Rogers, MD

Internal Medicine

Any Alternative or New Recommendations on This Agency:

Recommend :

Only liscense and registered technologist be allowed to take any imaging procedures With oversight on the state of Texas agency.

My Comment Will Be Made Public: I agree
