Agency: DEPARTMENT STATE HEALTH SERVICES DSHS

First Name: JOHN

Last Name: ROGERS

Title: RADIOGRAPHER

Organization you are affiliated with: ARRT

City: FORT WORTH

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I strongly believe that Texas should keep the license for radiology technologist. I currently work at a clinic where I am the only licensed tech, the other staff are medical assistant and LMRT graduates that have not passed there test yet. Our job as technologist may seem as easy as pushing a button but it is not. Staff who do not have the knowledge of the craft misuse and abuse the equipment. They do not monitor the x-rays that are being exposed to patients, they don't use shielding, incorrectly mark radiographic film and so on. It is imperative that Texas keep up its licensure policies because although it doesn't seem to effect the patients now think about the future medical issues and suffering our patients will endure

Any Alternative or New Recommendations on This Agency: a possible refresher course / alternative certification

My Comment Will Be Made Public: I agree
