Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I do not support the deregulation of code enforcement officers, bottled water, tanning beds or contact lenses. I have worked in all these areas and have seen the horrendous burns from tanning beds which have been fitted with non-compliant lamps, the problems with a clean water source in a bottling plant, and the abrasions on eyes from illegally marketed contact lenses.

Any Alternative or New Recommendations on This Agency: Focus on these programs/licenses should be reevaluated and pointed toward operational efficiency, cleanliness and enforcement of laws against scofflaws who abuse the system and provide unsuitable products. There should be less time spent on just trying to meet quotas, and having meetings to plan meetings to plan meetings. True and actual field work would really make these programs stellar.

My Comment Will Be Made Public: I agree
