Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

This is in concern of the staff report:

I am completely opposed to this.

Hospitals will not be held accountable for their equipment it can be a real safety concern for patients who receive ionizing radiation. Anyone would be able to perform X-rays. This will also be a patient safety issue especially if someone gets over irradiated by someone that is not licensed by the State.

Any Alternative or New Recommendations on This Agency: Keep licensure in place for hospital equipment and people that perform radiology studies. It is very important for patient safety.

My Comment Will Be Made Public: I agree
