Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I am contacting you as a physicist concerning the Sunset Staff Review published in May 2014.

I fully support the deregulation!

As a member of the medical physics community it is my opinion that the requirement for licensure restricts "out of the box" thinking and hence severely restricts necessary research.

It is my opinion that deregulation leads to more diversity and better quality of service!

Any Alternative or New Recommendations on This Agency:
