Your Comments About the Staff Report, Including Recommendations Supported or Opposed: It is my opinion that deregulating Respiratory Care Practitioners is detrimental to both the general public as well as to RCPs them selves. We, RCPs, have worked hard to educate ourselves, develop our skills, and prove our worth to the medical community. We have strived to develop our profession and provide relevant service to our communities. By deregulation the medical services we provide will begin to fall on an already overburdened Nursing services.

Any Alternative or New Recommendations on This Agency: Continue to licenses health care professionals do the public is protected and continues to receive the best possible medical services.

My Comment Will Be Made Public: I agree
