Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I just want to voice my opinion about the licensing of radiologic technologists. I do not believe in removing this requirement. All radiologic technologists should continue to be required to be licensed by the state and the ARRT. Due to the danger involved with radiation, we cannot allow unqualified people to just come in and work. Employees of institutions using radiation for imaging and/or treatment must be trained and aware of dangers associated with their jobs. We cannot allow institutions to hire whoever off the street to come and do this career. We also continue to be educated with continuing education throughout each year to keep us up to date on hazards/dangers in this field of work. Thank you for allowing me to comment.

Any Alternative or New Recommendations on This Agency: Same as above.
